

CURRICULUM VITAE

JOHN BRISCOE

June 2008

Mailing Address

Country Director for Brazil
The World Bank
SCN, Qd. 2, Lote A, Ed. Corporate Financial Center,
70712-900 - Brasília, DF, Brasil
Tel: Office 55-61-3367-1025; cell 55 61 8169 6484

Personal Data

Born: South Africa, July 30, 1948
Citizenship: South Africa and Ireland. Permanent resident (Green card) in US.
Languages: English, Afrikaans, Bengali, Portuguese, Spanish

Education

1965-1969: B.Sc (first class honours) in Civil Engineering, University of Cape Town
1970-1972 MS in Environmental Engineering, Harvard University
1972-1976 Ph.D. in Environmental Engineering Harvard University;
Major field: Water Resources Engineering; Minor fields: economics and demography
1993: Leadership Course at Center for Creative Leadership, Greensboro, North Carolina
1998: Executive Development Program -- Harvard and Stanford Graduate Schools of Business

Education Honors

University of Cape Town:

1965: Alan Spiers Memorial Bursary
Max Michaelis Scholarship
Barney Barnato Scholarship
1966-69 Electricity Supply Commission Bursary
1967 University Medal in Mathematics
1968 University Medals in Hydraulics, Hydrology, Transportation, Highways, Soil Mechanics and Thesis;
City of Cape Town Gold Medal as Best Graduating Engineering Student at the University;
South African Steel Institute Award for Best Structural Design;

E. Oliver Ashe Scholarship for Post-Graduate Study;
Cape Town City Scholarship for Post-Graduate Study.

Harvard University:

1970-74: Harvard University Fellowship
1974 Clemons Herschel Prize (awarded annually to the outstanding graduating student in Environmental Engineering)

Professional Registration

Registered Professional Engineer (South Africa, No. 848025)

Employment

Dr. Briscoe has had a career which has focussed on the issues of water and economic development. This has included employment in:

- In major universities (Harvard and the University of North Carolina);
- In a major international public health research institution (the Cholera Research Laboratory, now the International Center for Diarrheal Diseases Research);
- In a non-governmental organization (OXFAM);
- In government water management agencies (South Africa and Mozambique) and
- In the World Bank, the premier development agency in the World, in a variety of research, operational and policy roles.

Year	Period	Institution	Position	Major responsibilities
1967	3 months	ESCOM (the South African electricity company)	Trainee	Construction of the Arnot and Hendrina thermal power stations
1968	3 months	John Mowlem Co	Trainee	Construction of the King George Dock, Hull, England
1969	3 months	Ninham Shand and Co., Consulting Engineers	Engineer-in-training	Design of secondary sewerage treatment plant for town of Mossel Bay (population 50,000).
1970	1 year	Department of Water Affairs, South Africa	Planning Engineer	Hydrological and economic planning of water resource investments.
1973-5	3 years	Harvard/India Water Resources Program, Center for Population Studies, Harvard University	Project Coordinator	Water resource planning for Narmada and Ganges river basins in India.
1976	9 months	Harvard School of Public Health and MIT	Research Scientist	Responsible for assessment of effects of infection on nutrition for World Bank-funded study of urban malnutrition.
1976-7	1½ years	Epidemiology Division, Cholera Research	Epidemiologist	Design and execution of field research on water demand, health impact of water use, and political

		Laboratory, Bangladesh		economy of rural energy.
1978	6 months	OXFAM, Bangladesh	Advisor	Review of role of NGOs in development in Bangladesh.
1978-9	1 year	Division of Applied Sciences, Harvard University	Research Fellow	Research projects on water demand, diarrheal disease epidemiology, and social structure and energy use in Bangladesh.
1979-81	2 years	National Directorate of Water, Mozambique	Water Engineer	Management of a provincial water supply service. Design, planning and supervision of water and sewerage projects in rural areas and medium-sized towns.
1981-87	5 years	School of Public Health, University of North Carolina at Chapel Hill	Assistant/ Associate Professor	Research and teaching on water supply and water resources management.
1986-7	1 year	Policy and Research Division, Water Supply and Urban Development Dept, World Bank	Consultant (full-time)	Design and execution of multi-country research study on demand for water; preparation of World Bank Policy Paper on Rural Water Supply.
1988-90	2 ½ years	Population and Human Resources Division, Brazil Department, World Bank.	Senior Economist	Lending and analytic work on health in Brazil.
1990-96	5 years	Water and Sanitation Division, The World Bank	Chief	Responsible for the staffing and management of a new unit, with responsibility for providing specialized support to Bank operations, and for Bank research and policy in the water and sanitation sector. By 1996 the division comprised a professional staff of about 100, 70 of whom worked in field offices in Latin America, Africa and Asia. In 1996 the annual budget of the division was about \$16 million.
1996-2005	8 years	The World Bank	Senior Water Advisor	The senior water professional position in the World Bank. Responsibility for corporate policies and strategies on water and oversight of a portfolio of about \$50 billion of water resources, irrigation, hydropower, water and sanitation and water environmental projects. Author of the Water Strategy of the World Bank (2003). Since April 2003 has added dual responsibilities - as Senior Water Advisor for the South Asia Region while continuing to serve as Bank-wide Senior Water Advisor.
2005-date	current	The World Bank	Country Director for Brazil	Responsible for the World Bank's program of lending and analytic and advisory services to Brazil, one of the World Bank's biggest borrowers, with a loan portfolio of about \$12 billion.

Research Development and Management

Harvard University (1973-1976):

- Managed a major Ford Foundation-funded research cooperation program on water management in India (1973-1976)
- Jointly with MIT managed a research project on infection and nutrition.

Cholera Research Laboratory/International Center for Diarrheal Diseases Research (1976-1978)

- Developed and managed research programs on water and cholera, on nutrition and on energy.

Harvard University (1978):

- Conducted a Rockefeller Foundation-funded research project on energy and society.

University of North Carolina at Chapel Hill (1981-1986)

- Managed a USAID program on water and health.
- Was responsible for water and environment components of a Carolina Population Center study on infant mortality in the Philippines.
- Developed and managed a study on water and health in Malawi.

The World Bank (1987-2004)

- Developed and managed a major study on the determinants of demand for water in developing countries
- Managed a research project on adult health in Brazil
- Managed a major multi-donor research program in water supply for poor communities
- Managed a research program on integrated water resources management
- Was a member of the Bank-wide Research Committee, responsible for oversight of the Bank's research program

The National Research Council (1996-2002)

- Was a member of the Water Science and Technology Board

Engagement with International Water Partnerships

Dr. Briscoe was a founding member of the major global water partnerships. These include the World Water Council, the Global Water Partnership, and the World Commission on Dams. He has played a major role in the Rio Earth Summit and the World Summit on Sustainable Development.

Interviews and Speeches

Over the past 12 years, Dr. Briscoe has had extensive interaction with the major print, television and radio media. Interviews with Dr. Briscoe have been run by major media, including the BBC, CNN, CSPAN, Fortune, National Public Radio, The Economist, the New York Times, The New Yorker, The Economic Times and The Financial Times.

Dr. Briscoe has given many speeches at major water, environment and development conferences throughout the world. These include keynote speeches to: the International Water Association, the International Commission on Irrigation and Drainage, the International Hydropower Association, the World Water Fora and the Water and Environment Federation.

Scientific and Professional Articles

Dr. Briscoe has published widely in journals from many disciplines, including public health, nutrition, epidemiology, water resources, demography, anthropology, political science and economics. His publications include:

1. Briscoe, John, Public Health in Rural India: The Case of Excreta Disposal, Research Paper Series, No. 12, Harvard University Center for Population Studies, May 1976, 414 pages.
2. Briscoe, John, "Infection and Nutrition: The Use of Public Health Programs as Nutrition Interventions", Report for the Urban Poverty Task Force of the World Bank, and background document for: Confronting Urban Malnutrition: The Design of Nutrition Programs, by J. E. Austin, Johns Hopkins University Press, Baltimore, 1980
3. Briscoe, John, "Bangladesh: The politics of an International Health Program", Economic and Political Weekly, (Bombay), Vol XIII, No.11, March 18, 1978, pp 518-520.
4. Briscoe, John, "Health and Politics", Bichitra, Dhaka, Dec 23, 1977, pp 36-39.
5. Briscoe, John, "The Role of Water Supply in Improving Health in Poor Countries (with special reference to Bangladesh)", Working Paper #6, Cholera Research Lab, Dacca, 33 pp.; and American Journal of Clinical Nutrition, 31, pp. 2100-2113, November 1978.
6. Briscoe, J., S. Ahmed, and M. Chakraborty, "Domestic Water Use in a Village in Bangladesh, I: Methodology and a Preliminary Analysis of Use Patterns During the "Cholera Season"", Progress in Water Technology, vol. II, nos. 1/2, pp. 131-141, 1978.
7. Briscoe, John, "Labour and organic resources in the Indian sub-continent", in: Sanitation in Developing Countries, ed. A.Pacey, Wiley, NY, 1978, pp 186-191.
8. Briscoe, John, "The Quantitative Effect of Infection on the Use of Food by Young Children in Poor Countries", American Journal of Clinical Nutrition, vol. 32, no. 3, March 1979, pp. 648-676. Reprinted as a Monograph by the American Society of Clinical Nutrition, 1979.
9. Briscoe, John, The political economy of energy use in rural Bangladesh, Research Paper Series, Environmental Systems Program, Harvard University, 1979, 85 pages.
10. Briscoe, John, "Energy Use and Social Structure in a Bangladesh Village", Population and Development Review, vol. 5, no. 4, December 1979, pp. 615-641. Reprinted in Sociology of Natural Resources, ed. MR Dove and C Carpenter, Vanguard Press, 1992.
